HOW TO USE IT

To clean porcelain tile: Dilute 1:10 (1QT in 2.5 GAL of water) for regular cleaning. For heavy dirt build up, dilute 1:5 (1QT in 5 QT of water). Scrub vigorously with an abrasive pad and rinse thoroughly.
To remove stubborn stains on porcelain tile: Pour **PS87** undiluted directly on the stain. Allow it to completely dry (20-60 minutes), then scrub vigorously with an abrasive pad. Rinse thoroughly.
To clean unpolished natural stone: Dilute 1:10 when used on matte, honed, and natural finish stone.
To clean polished natural stone: Dilute 1:20 (1/2 QT in 2.5 GAL) when used on polished or highly honed natural stone.
To strip wax: Dilute 1:5. Let sit for 15 minutes, then scrub and rinse.
